Campus Safety

Campus Safety

The Wingate University Department of Campus Safety is committed to providing a safe and secure environment for students, faculty, staff and visitors. The primary concerns of the department are to protect and serve members of the campus community.

Wingate University is comprised of more than 1,700 students, faculty and academic support staff who enjoy a protected environment. Safety is no accident! The campus safety department, residence life staff and local law enforcement all work together to provide a formal structure for ensuring the safest possible surroundings for community members and their property.

In addition to these efforts, the most effective component of any safety program is you!

Don't become a victim...

In order for a crime to occur, perpetrators must have the ability, the desire and the opportunity to commit a crime. You can help remove the opportunity. Being safe sometimes means being inconvenienced. Plan ahead and make safety a priority in your life!
