

# UCSF Fresno

## Emergency Medicine PA Residency

**UCSF**  
Fresno

### Training?

The intensive 18 month residency will provide emergency medicine training in a dynamic teaching environment. All attending physicians affiliated with the residencies and fellowships are UCSF faculty. Coursework will include weekly emergency medicine conference, simulation training and journal club. Rotations include:

- Emergency Medicine
- Pediatric Emergency Medicine
- Critical Care
- Trauma Surgery
- Orthopedics
- Radiology
- Emergency Ultrasound
- Anesthesia
- Toxicology
- Dermatology
- Ophthalmology
- Oral Maxillofacial Surgery

The University of California, San Francisco (UCSF) - Fresno Medical Education Program is proud to support another graduate medical education program, the UCSF Fresno Emergency Medicine PA Residency. Sponsored by one of the most prestigious schools in the country, the UCSF School of Medicine, the program's goals are to train PAs of the highest caliber in patient care, research and education.

### Benefits?

- 18 month stipend: \$90,000
- Full benefit package provided
- Membership in the Society of Emergency Medicine Physician Assistants (SEMPA)
- Registration and travel allowance for SEMPA annual conference
- And more

### Why Fresno?

- Community Regional Medical Center, a 626 bed tertiary care center, is the only Level I Trauma Center between Los Angeles and Sacramento
- Annual ED volume of over 110,000 making it the 3rd busiest ED in California
- Well established emergency medicine training program since 1974, one of the oldest in the country. Also includes fellowships in Ultrasound, Wilderness Medicine and Medical Education.
- PA residents will train alongside physician residents in clinical rotations and didactic conferences
